

Chicago Electric moves to larger facility

Chicago Electric Sales Inc. is pleased to announce a move to a larger facility to support the growth of business. The 46,000 sq. ft. building in Hanover Park, Illinois is three times the size of the current location, and will support new initiatives in robotics and logistics, as well as traditional business of Corrugating Industry Upgrades and Automation Systems.

The facility will serve as a Center of Excellence including a Training Center; a Logistics and Robotics Demonstration Area; and Technology Development Laboratory. The new building will be a shared resource with the parent company of Chicago Electric; BHS Corrugated.

New location:

865 Muirfield Drive
Hanover Park, Illinois 60133
USA

Chris Clark, President of Chicago Electric commented, "the new facility will support our Corrugated Upgrade products and provide a platform for continued growth with BHS Intralogistics and Robotic Automation solutions." The move will be completed by March of 2021.
